***Election/Restrictions***

1. Applicant's election without traverse of Group I, Claims 1-11, 18 and 19 in the reply filed on April 9, 2009 is acknowledged.

However a further restriction requirement is deemed necessary due to a lack of unity of invention a posteriori (see requirement below).

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, and 6-9, drawn to an alkylacetal compound having the structure represented by general formula (1) and processes for preparing said alkylacetal compound.

Group II, claim(s) 3-5, 10, 11, 18 and 19 drawn to an alkylacetal compound having the structure represented by general formula (2) and processes for preparing said alkylacetal compound.

3. The inventions listed as Groups I and II lack unity of invention because even though the inventions of these groups require the technical feature of a large portion of their structures this technical feature is not a special technical feature as it does not make a contribution over the prior art in view of Registry (STN) [online], 31 August 1985, [retrieval date 09 May 2005], CAS registration number 93893-48-2 (supplied by Applicants). CAS registration number 93893-48-2 discloses a compound having the claimed formula (2).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosalynn Keys whose telephone number is (571)272-0639. The examiner can normally be reached on M & T 5:30 am-7 am & 9:30 am-4:30 pm; W-F 8:00 am-4:30 pm.
